More info to follow.

Happy Fall everyone!

While it is right about time to get our toys ready for the long winter sleep, there is plenty to keep us busy until the leaves start reappearing and the salt gets washed off the streets.

If it sounds like I'm getting ahead of myself, besides any projects that need to be lined up to have our cars and equipment ready for next season, we have a lot of planning and work ahead of ourselves in order to be ready to race at Nelson Ledges for 2018. Yes, you read that right. We have a written confirmation from the track for a June 2018 race weekend, with a second possible date tentatively held. The dates have been submitted to the Division for their calendar. Discussions about details that are required to be completed in order to hold a sanctioned double regional race at the track have begun. There has also been early conversations about reforming the Nelson Council.

Please consider attending a board meeting in order to be part of the plans to relaunch the totally repaved track in the next chapter of the history of the SCCA, NEOhio region and Nelson Ledges Race Track. Our next gathering will be a combined Annual Meeting at

High Voltage Karting in Medina on November 14<sup>th</sup>. Join us for a fun evening while getting some official Region business done. I promise that it will be a great time and worth the drive. It would be terrific to see and meet more of our members, as well as count a lot more votes for our new Board members and officers. It is your club, come out and have a blast. These Karts are fast! Check out a very nice place to get your adrenaline rush during the times when playing outside is not an option.

Speaking of chapters, please remember to search for pictures, memories and stories for Reed Kryder's book on the past history of Nelson Ledges. The idea is that it is going to be sort of a scrap book of the things that get sent to Reed, bound into a volume that I can hardly wait to get a copy of. Don't make the mistake that I did and delay getting this in to him. While I am encouraging you to do it, I procrastinated and three weeks ago had a major fire at my house, and may have lost all of my pictures, programs, etc. that I was going to send. Wouldn't it be great if the book were ready for the first event at the "new" Nelson?

# 1,000 Tire Rack Street Survival Schools!

---

The weekend of October 14 & 15, Tire Rack Street Survival hosted its 1,000<sup>th</sup> class at Tire Rack's South Bend, Indiana headquarters, celebrating 15 years of teaching teens the behind-the-wheel skills that keep all drivers safer on the roads.

"Since our very first class in 2002, we have educated more than 21,000 young drivers about the maintenance needs of their vehicles and the maneuvers that will keep them safe in emergency situations," said Bill Wade, national program manager for Tire Rack Street Survival. "This is our 15th year; we're moving forward with new classes faster than ever."

Each Tire Rack Street Survival class teaches licensed drivers between the ages of 15 and 21 important, potentially life-saving skills such as how to maneuver through a skid and how to avoid distractions while driving. In many classes, students get to sit behind the wheel of a semi-truck to experience the vehicle's significant blind spots for themselves. Because students use their own vehicles during the program, they also learn how to check the air pressure of their tires, check the oil level and perform other routine maintenance to understand the responsibility that comes with driving their vehicle.

"When they get behind the wheel of a vehicle, under-prepared teen drivers pose a risk to themselves, their passengers and other drivers on the road," said Matt Edmonds, vice president of Tire Rack. "Tire Rack Street Survival ensures that new and inexperienced drivers have the real-world training

they need. The curriculum goes far beyond what any student in a traditional driver education program will learn. Ultimately, the training these teens receive not only makes them safer, but it makes our country's roads safer."

The need for Tire Rack Street Survival's curriculum remains high. According to the most recent National Highway Traffic Safety Administration (NHTSA) data, nearly 4,000 youths ages 15 - 20 are involved in fatal motor vehicle crashes annually in the U.S. Learning critical on-the-road survival skills may help save lives.

Tire Rack Street Survival schools are facilitated by chapters of the Sports Car Club of America, BMW Car Clubs of America and Canada, Porsche Club of America, Audi Club of North America, the National Corvette Museum and other auto enthusiast clubs where a trained volunteer instructor base can be utilized. For more information and a schedule of upcoming Tire Rack Street Survival® classes taking place in various locations across the country, please visit [www.streetsurvival.org](http://www.streetsurvival.org).

## Condolences

Though Frank Young was not a current member of Neohio he was a long time member before moving to California. He was a very strong supporter of Lake Erie Communications and Nelson Ledges for many years. For those who remember him you cannot forget his smile and enthusiasm. I received news that Frank passed away in late August from COPD. I currently have no more information than that.

This weekend will be our Tire Rack Street Survival (October 21) event at Lorain County Community College. Talk about a fantastic way to give back to the community while having fun sharing our love of cars and car control. Starting out young drivers on the road of life with good habits and knowledge of safe driving is a real gift to the next generation of drivers and hopefully, future members of our sport. This is stuff that one cannot learn from a video game or simulator.

While there is time, remember to check your tread depth and air pressures on your daily driver. With temperatures dropping, the contact patch of your tires is the most critical item that you can quickly and inexpensively tend to that will make a big difference for safety.

Hope to see you soon,

Kerry

# Hoosier Racing Tire Super Tour 2017 Point Champions

TOPEKA, Kan. (Oct. 19, 2017) – The chase for Hoosier Super Tour point championships across 28 classes has come to an end. After 22 Hoosier Racing Tire SCCA Super Tour races at 11 tracks this year, plus the 54<sup>th</sup> SCCA National Championship Runoffs® at Indianapolis Motor Speedway, top series performers have now been identified.

A couple class point champions were decided prior to the Runoffs. After the record-breaking National Championship at IMS, several classes were decided by just a handful of points. The margin of victory in Formula Atlantic was only four points. Spec Miata was decided by three points. Two points was the winning margin in Super Touring Lite. The difference between the champion and runner-up in Formula Mazda came down to a single point. And H Production ended in a tie that was ultimately decided upon the strength of the point champion's Runoffs finish.

Only the top six regular-season finishes counted toward a driver's 2017 point total. Points were also awarded for a seventh and final race, the Runoffs. For each race, points were awarded to the top 20 finishers in each class. Winners earned 25 points, and 21 points went to second. Points were then doled out to others starting with 18 and descending to a single point for the 20<sup>th</sup> finisher.

Below is a rundown of the 2017 Hoosier Racing Tire SCCA Super Tour point champions. A full accounting of the standings can be viewed at the Hoosier Super Tour

another at Willow Springs International Raceway in Southern California, and a third at Circuit of the Americas in Texas. Three events were also held during April starting with Oklahoma's Hallett Motor Racing Circuit, followed by a stop at VIRginia International Raceway, and finally a visit to Buttonwillow Raceway Park in California. Next up was Round Fifteen and Round Sixteen at Portland International Raceway in Oregon. The regular-season calendar then wrapped up in June with three final events. The first weekend took place at Mid-Ohio Sports Car Course. Then came the June Sprints at Road America in Wisconsin before the final regular-season event at Watkins Glen International in Upstate New York.

## 2017 Johnny Appleseed Rally

Neohio hosted the Johnny Appleseed Rally on Saturday, October 14<sup>th</sup>. This year's route wound through the hills of Tuscarawas, Carroll and Harrison counties, fishing with dinner at the Canal Tavern of Zoar. It was part of the SCCA Great Lakes Division Rally Championship series.

Competitors and checkpoint workers enjoyed dry roads, clear skies and unseasonable warmth throughout the rally.

As usual, Detroit Region was well represented: Dave and Daniel Harkcom placed first overall with an impressive total of 8 penalty points for the rally's 14 timing controls (including a streak of seven straight perfect zeros!). Adam Spieszny and Piotr Roszczenko had a nice run. Their 32 point total netted them first in Stock class, and 3<sup>rd</sup> overall.

The Cleveland area team of Ryan Hurley and Emily Griffin drove

their Subaru WRX to first in Novice class, and second in Stock class with a very respectable total of 99 penalty points.

Complete leg-by-leg scores can be found on page 11.

Special thanks go to Jeff Arendas for not only doing the course precheck, but doing yeoman duty manning the clock at five of the rally's 14 checkpoints!

*Greg Lester*

## SCCA Great Lakes Division Rally Championship

The following rallies remain in the 2017 Great Lakes Division (GLD) Championship schedule:

- October 29 – Lake Erie Covered Bridges, Ashtabula, OH. [www.mbrscca.org](http://www.mbrscca.org)
- November 18 – Pavement Ends, South Lyon, MI. [www.detroit-scca.org](http://www.detroit-scca.org)

Look for a preliminary 2018 Great Lakes Division Rally Championship schedule to appear soon.

### Rallymasters needed!

Northeast Ohio was once a hotbed of road rally activity. We'd love to be able to present a proper Regional Rally Championship series once again. To achieve this we will need some "new blood" to volunteer to help organize rallies, as well as some experienced rallymasters to emerge from dormancy to serve as mentors.

Please contact Greg Lester if interested.
