The Starting Line

Report by Bob MacDonald

Happy Holidays to all of our members! I hope you have the opportunity to enjoy time with family and friends as 2023 comes to a close and we embark on 2024.

In the interest of continuing to have the freedom to have *#funwithcars* that we enjoy, we have been asked by our sponsor, Summit Racing, along with SEMA and the Performance Racing Industry (PRI) to share the following:

We Need Your Help...Protect the Future of our Industry!

Summit Racing Equipment is partnering with SEMA and PRI to help protect the automotive aftermarket and participate in its advancement. Our ability to repair, maintain, and modify vehicles and our freedom to choose the technology that powers them are on the line. Go to SummitRacing.com/legislative-alerts to learn more and speak up!

We are helping get the message about these issues out to fans, followers & customers. Here is some quick messaging about the legislation: The REPAIR Act and Right to Modify protects your right to access data and tools you (or your shop of choice) need to repair, maintain, and modify modern vehicles. Without the legislation, we're at the mercy of the manufacturers and dealer services to access systems for repair, reset electronics after modifications, and perform routine maintenance. **Don't let your car's advanced technology lock you out of maintenance, repairs, and mods!**

Meanwhile, proposed regulations in California ban the sale of new vehicles with internal combustion engines by 2035 while favoring Battery Electric Vehicles (BEVs). Plus, the EPA's proposed federal emission standards feature a tight timeline and subsidies that essentially make production and purchase of BEVs the only option. Other technology will be stunted and BEVs will be our only choice whether we're ready or not. The Preserving Choice in Vehicle Purchases Act and CARS Act prevent these regulations in favor of developing low-emissions technology consumers want...not what we're forced to buy.

Go to SummitRacing.com/legislative-alerts for details and links to SEMA Action Network's one-click email campaigns. Join me in asking our representatives to support these important issues today!

Notes from the Director's Chair Area 4 Director Update for December 2023

This is a bit late this month but that was deliberate for a change. I wanted to include details about my trip to Kansas City for the BoD meeting. I drove out on 11/29, visited some family who live near there and went to the site on 12/1. We met on 12/2 and I drove home on 12/3. Whew! 1767 miles in five days.

So, here's what I did this past month.....

Video Conference Meetings:

Club Racing Board (CRB) (11/7): The CRB reviewed the strategy for data collection for 2024. Which tracks, what races, etc. They also had an involved discussion on the future of the Club Racing program. In the end, it was obvious that we need to have a strategic planning meeting in the spring. This will allow us to focus on the long-term planning of the program. I have already started working with John LaRue (CRB Chair) on this. Like every other monthly meeting, the open letters were reviewed as well. The results of all of the CRB rules changes can be seen [here](#).

Electrified Vehicle Advisory Committee (EVAC) (11/8): Final revisions of the latest SCREV update were discussed. These would be passed on to the BoD for review and promulgation. We reviewed pending letters. We also discussed hosting a town hall type meeting for our December time slot so folks could query us about the committee and its work.

Board of Directors (BoD) (11/27): With a face to face meeting coming up next week, we cancelled this particular meeting.

SCCA Events:

Board of Directors (BoD) (12/2): Once again, our face-to-face meeting was very productive. Just so you know, I'll share a bit about how they work. We receive updates and forecasts from all the senior national staff. This includes Mike Cobb (President), Eric Prill / Deanna Flanagan (Club Racing), Heyward Wagner (Experiential), Jeff Dahnert (Business Operations), Robey Clark (SCCA Enterprises), Kristen Poole (Marketing) and Chris Robbins (Regional Development). During each report the members will pepper the presenter with questions, so we have a better understanding of the topic. These presentations take most of the morning and may drift into the afternoon. After that, we then hear from the various program board liaisons and act upon any rules changes that may be pending.

Mike showed us his proposed budget for 2024 and it looks very encouraging. We are in a pretty good financial position. We will be able to take on new personnel and work on new projects for the members. In addition to updates about Solo, RallyCross and HillClimb, Heyward gave us more details about the Club Spec idea. It looks very promising with the S197 Mustang and NC Miata as options. I encourage everyone to investigate it by clicking [here](#) for more details.

This particular meeting also had a wide ranging discussion about various SCCA yearly awards (Wolff Barnato, Member of Excellence, etc.). We concluded the day by closing the 2023 meeting and opening

Continued on next page

the 2024 meeting. This involved welcoming the two new members, selecting officers for the 2024 Board and making committee assignments. As for me, I will continue to be a liaison with the CRB as well as Chair the EVAC.

Be sure and visit the [GLDiv website](#) for information about all of the SCCA programs within the division. We have schedules, official's contact info, standings, etc. for all the SCCA programs.

Please take a few minutes and make sure your contact information is accurate in the SCCA database. It's important to have the correct information there so the club knows how to contact you. Log in to your [my.scca.com](#) page and check.

As I mentioned previously, there is a new path to getting your annual waiver. You can now get it through the Member Account Portal (MAP). Follow this [link](#) to get the instructions. There is also a story about the program [here](#). I've done it and it only takes a couple of minutes. Be prepared to upload a headshot picture of yourself.

Thank you for your time and I look forward to hearing from you soon. Please feel free to contact me with any questions or comments you may have about any facet of the GLDiv. I want you to make the most of your membership and I will help out in any way possible to make that happen.
