The Starting Line

REport by Bob MacDonald

As Fall approaches, we have a lot going on here in NEOHIO Region, SCCA!

Registration is now open for our **Jim Pracker and John Hinkle Memorial Races** at Nelson Ledges the weekend of September 13-14th. **Jim Pracker** was a racer and tireless volunteer who helped our region in many ways, including stints as Trustee, Regional Executive and Chief of Emergency Services. Jim also provided a lot of two-way radio support for our region and Nelson Ledges. **John Hinkle** was one of the original "track brats", having grown up at the track while his parents, Woody and Suzy, were serving as volunteers in F&C. John grew up to serve in many roles in the region including racer, rally driver and/or navigator, autocrosser, crew chief and volunteering in F&C, as a Rally Master and as Chair of a couple of Solo events.

The weather should be fantastic the second weekend of September. In addition to the traditional Divisional Race classes there is an optional Pursuit Race on Saturday afternoon. Sponsors have put up cash and gift cards for this race, which was very popular last year and featured a very close finish. Come see if you can win back some of your entry fees!

Driver Registration is open at <https://msreg.com/jpjhmemorialrace>

If you can't race, please volunteer at <https://msreg.com/jpjhmemorialracevol>

PLEASE NOTE: Solo Points Event #5 is coming up September 14th which is a date change from what's been posted in previous editions of the Blower! **Solo Points Event #6** is scheduled for September 28th. Both events are at the IX Center. There is also a **Solo at the Captain's Lot** in Eastlake on September 27th, featuring the Leroy Miata Challenge. Pre-registration is required and all NEOHIO solos for 2025 are open on MotorSportReg.com.

Registration is also now open [here](#) for all three of the **US Road Rally Challenge** events hosted by NEOHIO Region. Friday, October 10th will feature the **Johnny Appleseed Rally** from Canton down to Marietta, Ohio. Saturday, October 11th will be the **Ohio Milk Run**, using a different route to return to Canton. These will both be straightforward TSD style rallies. On Sunday, for a fun twist on the sport, the **Cleveland Alley Rallye** is being resurrected. This is a Charity Rallye supporting Slow Roll Cleveland. Learn more about this very special event on page 14. Richta automated timing will be used for all three rallies. Competitors of all experience levels are encouraged to enter any or all of these events. More information about the Great Lakes Division Rally Series, including these events, is available on page 9.

Rally Master Rob Moran has scheduled the **CAST in Stone Rally** on November 1st and is adding a companion Rally called **Course in Stone** for November 2nd. Both events will start in North Canton. More information will be available soon!

REport continued from page 1

Looking back, we had a great turnout August 14th for **Racers & Pacers Night at the Crawford!** This event was a reception for the new permanent exhibit, which currently features Bobby Rahal's Cleveland Grand Prix winning car, a race car from Dick Leppla and the recently donated Cat Kizer 1979 Runoffs HP winning car. About 75 people turned out and enjoyed a delightful interview with Cat and David. It was great to see so many SCCA members there! Check out the photos elsewhere in this issue and visit the museum if you haven't been in a while.

Look closely for the changes in the updated view of the year ahead on page 12. Items highlighted in BLUE are confirmed NEOHIO Region events. Items highlighted in GREEN are confirmed to the best of our knowledge.

Our sponsorship program continues to grow. This is important because these businesses support our region, making events more robust and affordable. Please look for our sponsors and advertisers throughout the Blower and continue to support them so they continue to help us.

In the meantime, I look forward to seeing you at an event soon!

Notes from the Director's Chair
Area 4 Director Update August 2025

I will be very busy in August. I'll visit the OVR Double Regional at MidOhio as well as be the Pace Car driver for two events at Grattan later in the month. Throw in that we will be moving my 86 year old Mother to be closer to us and it'll be a trying month all around.

I also have a couple of announcements to make. After consultation with my BoD colleagues, I have decided to accept their offer and assume the role of Club Racing Board (CRB) Chair permanently. I was installed back in January on an interim basis. Since then, I have enjoyed the role a lot more than I had expected. Making this announcement adds clarity to the Club Racing program at a time of flux as we conclude the 2025 season and prepare for the 2026 season.

As I know I cannot effectively occupy both roles at the same time, I will resign my position as Area 4 Director on 12/31/25. I have informed the BoD Chair (Bob Crawford) of these decisions. This timeline will allow the Board to find a successor and have a seamless transition. I will continue to serve as your Director for the remainder of the year so please reach out to me if you have any issues that you think need my attention.

Here's what I did since my last report.....

Video Conference Meetings:

Club Racing Board (CRB) (7/1): We discussed a variety of data acquisition issues (Runoffs plans, cars that were difficult to collect data, long term plans, etc.). The group continued to focus on the face to face meeting which would be held at the end of the month in Kansas City (see below). We worked on the agenda and logistics (getting folks to and from the airport to our downtown hotel). We discussed some balance of performance (BoP) in the Prototype class. We added some motors to the GT2 class as well. The results of all of the CRB rules changes can be seen [here](#).

Electrified Vehicle Advisory Committee (EVAC) (7/9): We reviewed EV safety information that will be added as modules to the Solo Safety Steward and RallyX Safety Steward refresher training courses. We also began the process of creating an Emergency Resource Guide (ERG) template for bespoke cars that would compete in SCCA events. This would allow builders to have an easy to follow plan when creating the ERG for their racecar. ERGs are created by manufacturers so customers have information about all sorts of features that might need to be highlighted should someone tow or work on that

Continued on next page

Continued from previous page

sorts of features that might need to be highlighted should someone tow or work on that particular vehicle.

Production Advisory Committee (PAC) (7/22): As I had not sat in on an advisory committee (AC) meeting before, I thought I would join to understand how they operate. There are several ACs that report to the CRB. Each one has a category or class that it oversees. As a long time, production car racer, I thought this would be a good place to start as I had experience in the category and knew most of the members of the AC.

Board of Directors (7/28): As we met face to face last week (see below), we did not have our regularly scheduled monthly Zoom meeting.

SCCA Events:

CRB Meeting (7/24, 7/25): We held a two-day meeting in Kansas City. We met all day on 7/24 and used the morning of 7/25 to finish things up. I was bouncing back and forth between meetings on 7/25 as the BoD held its meeting at the same time.

We discussed a variety of things. How would we handle data collection? Both short term after the retirement of Glen Thielke and long term. Would we be able to effectively collect data from all classes so good BoP could be incorporated? We discussed the "Open Letter" that I wrote to the drivers corps asking for more involvement. Sydney Davis Yagel had sent out a survey to 7300 drivers and we examined those responses for guidance on program policy. We reviewed the license structure for Club Racing as well as Race Experience programs and how they could tie together. We discussed the driver's school requirements so each new driver would be armed with the same information when entering their first SCCA event.

BoD meeting (7/25, 7/26): Like the CRB, we held a two-day meeting in Kansas City. This was two whole days as we had a very full agenda on our hands. It also included some team building exercises since we were in downtown KC and not isolated way out at the airport.

Like the CRB meeting, we had a wide variety of topics on our plate. In no particular order, here are a few of the topics discussed.

We heard from our lawyers about various cases the club is involved with currently.

A steady, yearlong reduction in entries across all of our programs had led to a lower than expected (budgeted) revenue from event sanction fees. Budgets have been revised, and we should be able to catch up by the end of the year.

Our new IT guy (Kevn Dayo) reported about several ways he has increased security on our systems. To this computer illiterate layman, all of this sounded like science fiction, but it has been quite effective. He has been a great addition to the national office staff.

2025 SCCA US Road Rally Challenge (USRRC), October 10-12, 2025

Plans for the 2025 SCCA US Road Rally Challenge, hosted by Neohio Region, are starting to solidify. Here is some information about the three rallies:

1) Friday, October 10 - **Johnny Appleseed Rally** (JAR), Canton, Ohio. Absolutely straightforward afternoon/evening TSD rally winding southeast through Ohio's Muskingum Watershed Conservancy District (MWCD), then south through the Appalachian foothills, to an overnight halt in Marietta, Ohio. Columnar "tulip" style route instructions (similar to a stage rally routebook) will be used. To help those with limited previous timekeeping experience stay on schedule, parenthetical perfect cumulative times will be provided for nearly all instructions. The Johnny Appleseed name is a legacy from a National Rally first hosted by Neohio Region in the 1950's. The rally has changed form over the intervening decades, but the name endures. Rallymaster: Greg Lester. Registration is open, and more information can be found here: msreg.com/JAR25

2) Saturday, October 11 - **Ohio Milk Run** (OMR), Marietta, Ohio. Another absolutely straightforward TSD rally running northbound, and parallel to, but slightly west of Friday's route. The Milk Run name is an homage to an old motorcycle enduro that ran in the same area. Rallymaster: Ron Johnstonbaugh. Registration is open, and more information can be found here: msreg.com/OMR25

3) Sunday, October 12 - **Cleveland Alley Rallye**, Cleveland, Ohio. The Alley Rallye will be a resurrection of a once hugely popular annual event organized by the now-defunct Cleveland Sport Car Club, starting in the 1950's. It is a lighthearted jaunt that will introduce participants to the full spectrum of Cleveland's urban landscape: the post-industrial "Flats", distinct ethnic neighborhoods, grids of narrow brick streets separating century-old warehouses, mazes of alleys and loading docks beneath theaters and office towers, and numerous breathtaking views of the mighty Cuyahoga River (yes, THAT Cuyahoga - the one that burned!). Timekeeping equipment will be restricted to pop stock odometer and a basic four function non-programmable calculator (i.e. - all teams will run at equal disadvantage.). Proceeds from this rally will be donated to **Slow Roll Cleveland** (www.slowrollcleveland.org), a 501(c)3 charity that promotes community engagement through inclusive social bike rides. Rallymaster: Jeff Arendas. Registration is open, and more information can be found here: msreg.com/CLE25

The Richta automated timing system will be used for all 3 rallies.

[Competitors of all experience levels are encouraged to enter these rallies.](#)

Eric Jones Memorial Riverrun, August 30, 2025:

Riverrun is an annual all-day driving tour over wonderful roads in southern Ohio. All proceeds from the event will be donated to a Mesothelioma research charity in memory of longtime Columbus, Ohio area rallyist, and British car service/restoration business proprietor Eric Jones.

Our marketing guru (Kristen Poole) updated us on how the new website is coming along. Its revision will allow us to be more effective in reaching members and supply them with pertinent information. Her marketing skills are amazing, and she deserves a lot of credit for guiding this essential department and making it more relevant in the past few years.

Eric Prill brought us up to speed on the status of the Club Racing program. Like other programs, entries are down this season. This is due to various factors (economic uncertainty, travel costs, entry costs, etc.). We discussed ways to enhance the program while maintaining its vision.

We dedicated most of Saturday (7/26) to the SCCA Foundation. Clay Turner (BoD Vice Chair) spearheaded the discussion and helped us gain focus on how the foundation could be more effective in its stated goals.

We adjourned around 2p so we could, as a group, have a team building exercise. Kansas City is a wonderful city to visit. It has a nice variety of museums, sports, nightlife and other activities. We would go to the World War I museum. The group had a wonderful time, and it was the kind of experience that we just couldn't do when our meetings were at the KC airport Marriott. We all got to know each other a bit better. We finished off the weekend by dining together at the hotel's restaurant.

Please take a few minutes and make sure your contact information is accurate in the SCCA database. It's important to have the correct information there so the club knows how to contact you. Log in to your [my.scca.com](#) page and check.

There is a new path to getting your annual waiver. You can now get it through the Member Account Portal (MAP). Follow this [link](#) to get the instructions. There is also a story about the program [here](#). I've done it and it only takes a couple of minutes. Be prepared to upload a headshot picture of yourself.

Thank you for your time and I look forward to hearing from you soon. Please feel free to contact me with any questions or comments you may have about any facet of the GLDiv. I want you to make the most of your membership and I will help out in any way possible to make that happen.
